DETAILED ACTION

1. Claims 1, 2, 4-31, and 33-67 are allowed. These claims have been renumbered as claims 1-65.

Drawings

2. The following changes to the drawings have been approved by the examiner and requested upon by the examiner to the applicant: Drawing figure 1 should include text to identify the reference numerals used to identify the various computing components. Drawing figure 2 includes black shading. The black shading is considered solid black shading which is not permitted in figure drawings (see MPEP § 1.84 (m)) Standards for drawings). In order to avoid abandonment of the application, applicant must make these above requested upon drawing changes.

REASONS FOR ALLOWANCE

3. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not render obvious to one ordinarily skilled in the art at the time of applicant's invention nor anticipate the combination of claimed elements including "a plurality of advisories specifying relevance criteria and an action, at least one advisory describing a problem that has been discovered on a client computational device" and "wherein each of said distributed clients, each running on an associated

Art Unit: 2167

computational device, determines relevance of an advice message by evaluating a relevance clause of said advice message, while automatically retrieving properties of the computational device on which said client runs" as recited in independent claim 1 and similarly recited by independent claims 12, 18, 30, 41, and 47.

As per claim 54, the prior art of record does not render obvious to one ordinarily skilled in the art at the time of applicant's invention nor anticipate the combination of claimed elements including "offloading a download burden from said server with a relay, wherein said clients download from a designated relay; said server distributing each advisory once to said relay, which in turn distributes said advisory to said clients" and similarly recited in independent claim 58.

The remaining claims, 2, 4-11, 13-17, 19-24, 26-29, 31, 33-40, 42-46, 48-53, 55-58, and 60-67, are dependent claims, thus these claims are patently distinct over the art of record for at least the above reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
